

# After School Art

brought to you by

## The Art Spark

A "spark" is the most valuable moment of the creative experience. When your child creates with The Art Spark, they constantly ignite sparks of imagination as they work to brainstorm ideas, solve problems, and create unique works of art using paint, markers, clay, fabric, paper maché, and so much more. Our teachers are educators who have studied art and education at the collegiate level and beyond!

### • Theme?

Forest Friends!

### Who?

Ages K-4th grade
