

Summer 2021

Chess Scholars

Online Sessions

Research has shown a strong link between chess and academic performance in a variety of areas, including mathematics, language arts, motivation, concentration, and social skills. Each 60 minute online class will consist of a fun, interactive teaching period with a live instructor and guided practice time where students can play remotely against other Chess Scholars students. Both beginner and experienced players are welcome.

Each program runs 1 lesson per week, meaning the lesson on Tuesday is the same as the lesson on Thursday.

Students in **grades 4-8** are welcome to attend whichever class time works best for their schedule each week; the link they receive will work for all class times for the program.

Your enrollment in any class includes a free pass into our Summertime Social Hours! This Zoom call will be focused on fun as AES students across the country gather to play online games, solve Escape Rooms, discuss shared interests and make new friends under the guidance of an experienced instructor.
